

# CIW v5 Site Designer Software Spreadsheet (May 2005 Release)

## Software Requirements

During development of this course, Adobe Systems Inc. acquired Macromedia Inc., the owner of several software applications discussed and demonstrated in this course. Issues such as product name changes were not finalized when this course went to print. Therefore, some course narrative, labs, figures and URLs still refer to these applications as products of Macromedia. These references will be updated in future releases of CIW courseware, after information becomes available from Adobe. At this time, you should not experience any delivery problems with this courseware due to the Adobe acquisition of Macromedia.

Design Methodology and Technology v8.0 (CIW v5) Software	Purchase	Pricing Information Note: All software must be properly licensed before classroom implementation.
<b>Operating Systems</b>		
Windows Server 2003 w/ Microsoft Certificate Server.	<a href="http://www.microsoft.com">www.microsoft.com</a>
